

## Internationally renowned doctors and scientists participate in the 2<sup>nd</sup> Wetzlar Medical Symposium about MBST magnetic resonance therapy

The 2<sup>nd</sup> Wetzlar Medical Symposium will take place on March 23, 2019 at the arcona Living Ernst Leitz Hotel. Topic of this year's event is "New conservative concepts for the treatment of osteoarthritis, cartilage defects, osteoporosis and other diseases and injuries of the musculoskeletal system". More than 150 doctors and scientists from the whole world have enrolled.

### Degenerative diseases are on the rise

Due to medical progress, we are able to reach higher age much more often. But that also increases the risk of degenerative diseases like osteoarthritis and osteoporosis. In order to enjoy their longer time of living with as little pain as possible and keeping their self-sufficiency, many people need medical help. Modern medicine offers various treatment options for degenerative diseases. More and more patients especially ask for non-surgical therapies with few side effects.

### Renowned speakers report directly from the practice

The various lectures will be held by renowned national and international experts. Focus of the event is the practical application of MBST magnetic resonance therapy that is used in inpatient and outpatient treatment, postsurgical, post-inpatient and rehabilitation-accompanying by doctors worldwide. Not only scientists but also orthopaedists and experts in sports medicine will present the multiple treatment options and successful concepts of therapy.

### Worldwide interest in the patented MBST magnetic resonance therapy system from Wetzlar

Doctors, therapists and scientists from 20 nations have enrolled to discuss the application of therapeutically used MBST magnetic resonance therapy and get to know the latest therapy device generation, the MBST SPIN-SYSTEMS.

### Organiser

Organiser of the event is the Wetzlar-based company MedTec Medizintechnik GmbH that has been awarded several times for its innovative medical technology and is already nominated for the German Brand Award 2019 in the category Healthcare & Pharmaceuticals.

Medical staff or journalists interested in the event are welcome to register until Thursday, March 21, 2019: phone: 0049 (0) 6441 679 18 29 – the number of participants is limited.

### About MedTec Medizintechnik GmbH

Founded in 1998, MedTec Medizintechnik GmbH from Wetzlar has developed from a pioneer to world market leader in the field of therapeutically used MBST magnetic resonance technology. MedTec develops, produces and distributes the worldwide unique and patented technology that is used in MBST therapy system for human, veterinary and aesthetic medicine. Doctors, specialist, medical centres, hospitals, clinics and universities put their trust in the MBST therapy system today – not only in Germany and Europe but worldwide. It is MedTec's vision to enable a healthy, active and pain-free life for patients of nearly every age with its therapeutically used MBST technology. The MBST magnetic resonance therapy achieves that in the treatment of various degenerative diseases and injuries of the musculoskeletal system without needing drugs, injections, infusions, pain killers or surgical interventions. More than 1,000,000 hours of therapy have been applied with the MBST magnetic resonance technology so far without any side effects or interactions becoming known. MedTec Medizintechnik GmbH stands for global leadership of market and technology with its worldwide patented therapeutically used MBST magnetic resonance technology.
