

MBST Award 2020 goes to Dipl.-Med. Hans-Georg Nagel · Merseburg

At the 3rd Wetzlar Medical Symposium about MBST magnetic resonance therapy, Dipl.-Med. Hans-Georg Nagel was awarded for more than 10 years of successful use of MBST therapy.

MBST Award for Dipl.-Med. Nagel

Dipl.-Med. Hans-Georg Nagel received an MBST Award at the gala evening during the third international medical symposium about MBST therapy in Wetzlar. He has used the MBST magnetic resonance therapy for more than 10 years in his orthopaedic practice in Merseburg with great success.

Orthopaedic practice Nagel

The orthopaedic practice Nagel has a cooperation with the Basedow-Klinikum. As the only hospital in the region Saalekreis, the Basedow-Klinikum is responsible for providing extensive healthcare services for the region's population. To be able to fulfill this task, it cooperates with licenced doctors like Dipl.-Med. Hans-Georg Nagel.

Hans-Georg Nagel is specialist for orthopaedics and trauma surgery, chirotherapy and x-ray diagnostics skeleton as well as osteology. The focus of his medical practice is set on the non-surgical treatment of diseases of the musculoskeletal system such as osteoarthritis and osteoporosis. Since March 2008, he has been using the MBST magnetic resonance therapy system with good treatment results. The orthopaedic practice has 4 MBST magnetic resonance therapy devices and can therefore treat a variety of indications in different treatment zones.

The practice is situated in the medical care centre of the Basedow-Klinikum Saalekreis, as a part of the Gesundheitszentrum im Säulenhaus in Merseburg on level 2. The medical care centre combines the advantages of a polyclinic with the new possibility of cross-sector care. This concept aims at improving the structure of medical care by a close linking of inpatient and outpatient services. By providing medical help from one source, repeated or double examinations can be prevented and waiting time and distances are shortened.

About MedTec Medizintechnik GmbH

Founded in 1998, MedTec Medizintechnik GmbH from Wetzlar has developed from a pioneer to world market leader in the field of therapeutically used MBST magnetic resonance technology. MedTec develops, produces and distributes the worldwide unique and patented technology that is used in MBST therapy system for human, veterinary and aesthetic medicine. Doctors, specialist, medical centres, hospitals, clinics and universities put their trust in the MBST therapy system today – not only in Germany and Europe but worldwide. It is MedTec's vision to enable a healthy, active and pain-free life for patients of nearly every age with its therapeutically used MBST technology. The MBST magnetic resonance therapy achieves that in the treatment of various degenerative diseases and injuries of the musculoskeletal system without needing drugs, injections, infusions, pain killers or surgical interventions. More than 1,000,000 hours of therapy have been applicated with the MBST magnetic resonance technology so far without any side effects or interactions becoming known. MedTec Medizintechnik GmbH stands for global leadership of market and technology with its worldwide patented therapeutically used MBST magnetic resonance technology.
