

## An MBST Award 2020 goes to Montabaur

At the 3<sup>rd</sup> Wetzlar Medical Symposium in Wetzlar, Matthias W. Hoetzel was honoured with an MBST Award. The specialist for general medicine is – together with Dr. med. Karl Schuster – head of the Praxishaus Montabaur, an academic teaching practice of the universities of Mainz and Marburg. One of his main areas of practice is sports medicine. Hoetzel has longstanding experience in medical care for professional athletes as racing doctor and advises drivers and teams for example on famous long distance races like 24h-Nuerburgring / Spa / Le Mans / Daytona.

### MBST Award for Matthias W. Hoetzel

During the third international medical symposium about MBST magnetic resonance therapy in Wetzlar, that took place on the 6<sup>th</sup> and 7<sup>th</sup> of March 2020, Matthias W. Hoetzel received an MBST Award for the joint practice Dr. med. Karl R. Schuster and Matthias W. Hoetzel. As owners of an academic teaching practice of JGU Mainz and Philipps University Marburg, both are lecturers for the training of students of medicine and the internship in general medicine.

### 1<sup>st</sup> competence centre for MBST magnetic resonance therapy in Germany

At the gala event in Leica Park in Wetzlar on the evening before the symposium, Matthias W. Hoetzel was honoured for his long-standing successful use of MBST magnetic resonance therapy. The joint practice is the first competence centre for MBST magnetic resonance therapy in Germany. All three MBST therapy devices of the newest device generation are used in the practice which offers the whole range of treatment options with MBST.

### MBST magnetic resonance therapy in motor racing

For more than 30 years, the two have cared for racing teams and worked as race doctors at international and national major racing events worldwide (USA, Sebring, Daytona, Mexico, Canada, Suzuka, Macao, Africa, Europe i. e. Le Mans, Nuerburgring). Today, they still are racing doctors at the 24h-race at Nuerburgring, SPA and Le Mans: Juergen Alzen Motorsport, Manthey-Racing, Land-Motorsport, Konrad Motorsport, ABT-Audi, ABT-Bentley, Haribo-Racing, BMW Motorsport und Schnitzer Motorsport. Dr. med. Karl R. Schuster and Matthias W. Hoetzel have an international licence as leading racing doctors of the DMSB (German Association for Motor Sports e.V.)/ FIA.

*“To stimulate and optimize the regenerative potential of damaged structures, we put our trust in a multimodal therapy approach centering around MBST magnetic resonance therapy and have done so for many years”, says Matthias W. Hoetzel. “In our practice in Montabaur, we not only treat ambitious leisure or professional athletes with MBST therapy but mainly normal patients. The treatment results are excellent. Therefore, we use the whole range of the newest MBST therapy devices. We are proud to be the first competence centre for MBST in Germany.”*

### About MedTec Medizintechnik GmbH

Founded in 1998, MedTec Medizintechnik GmbH from Wetzlar has developed from a pioneer to world market leader in the field of therapeutically used MBST magnetic resonance technology. MedTec develops, produces and distributes the worldwide unique and patented technology that is used in MBST therapy system for human, veterinary and aesthetic medicine. Doctors, specialist, medical centres, hospitals, clinics and universities put their trust in the MBST therapy system today – not only in Germany and Europe but worldwide. It is MedTec’s vision to enable a healthy, active and pain-free life for patients of nearly every age with its therapeutically used MBST technology. The MBST magnetic resonance therapy achieves that in the treatment of various degenerative diseases and injuries of the musculoskeletal system without needing drugs, injections, infusions, pain killers or surgical interventions. More than 1,000,000 hours of therapy have been applied with the MBST magnetic resonance technology so far without any side effects or interactions becoming known. MedTec Medizintechnik GmbH stands for global leadership of market and technology with its worldwide patented therapeutically used MBST magnetic resonance technology.
