

MBST nominated for German Medical Award

After its repeated success at the German Brand Award '20 as well as the innovation competition TOP100 2020, MedTec Medizintechnik GmbH is also nominated for the German Medical Award which will take place in November. This makes it the third time in this year that the treatment option for use in conservative non-surgical orthopaedics MBST belongs to the circle of finalists in a renowned competition.

German Medical Award · Awarded medicine

Supporting doctors and companies in increasing their activities for the good of the patient: That is the main idea of the German Medical Award. The prize is awarded not only to doctors, medical experts and clinics but also to innovative companies in the healthcare branch. The focus is set on an exceptional engagement and advanced patient care.

Medicine with additional value for the patient

This year, MedTec Medizintechnik GmbH is among those who have been chosen out of a large pool of applicants by the jury and the scientific advisory board including renowned medical doctors and economy experts from the healthcare sector. The nomination confirms that the MBST magnetic resonance therapy which is exclusively produced and distributed by MedTec fulfills the criteria that are sought for at the German Medical Award: quality and innovation in medicine that provides distinct additional value for the patients.

Award ceremony at the exhibition MEDICA

The German Medical Award is presented in cooperation with the federal state capital Düsseldorf and the exhibition MEDICA, the biggest event for the healthcare branch worldwide. The award is under the patronage of the Minister for Work, Health and Social Affairs of the federal state Nordrhein-Westfalen Karl-Josef Laumann. As usual, the award ceremony will take place in the context of the MEDICA in Düsseldorf even though the fair will be a digital event this time. Since the number of participants for the ceremony in the evening and the accompanying symposium is limited, a livestream of the event will be available on the website of the German Medical Award.
