

MBST global leader from Wetzlar wins German Brand Award 2020

On the 18th of June 2020, MedTec Medizintechnik GmbH from Wetzlar has again won the German Brand Award for its MBST magnetic resonance therapy. With this award, the global leader in the field of therapeutically used MBST magnetic resonance technology has convinced the jury of experts with MBST for the second time in the category "Excellent Brands – Health & Pharmaceuticals".

MBST magnetic resonance therapy · Awarded as one of the most successful German brands once again!

The role of MedTec Medizintechnik GmbH as innovator and the success of its brand MBST magnetic resonance therapy is honoured as "Winner" out of 1,200 applications from 14 countries. Initiator of the German Brand Awards is the Rat für Formgebung which was founded by the German Bundestag and sponsored by the Bundesverband der Deutschen Industrie in 1953. Today, the circle of sponsors includes more than 320 enterprises. For more than 60 years, the foundation's objective has been the support of the competing

power of German companies on a national and international scale.

MBST stands for "Molecular Biophysical Stimulation" and is a unique conservative therapy approach

After the first success in 2019, the MBST magnetic resonance therapy was awarded for a second time by the independent and first rate jury of experts. It is now in a class of its own.

Health – possibly our most valuable possession

Our health is possibly the most important requirement to feel good, be mobile and productive and have joy in life. Health depends on several different factors. Some of these we can influence ourselves, others not. Targeted prevention and adequate therapies can help to support the health systematically up until old age. This is the main field of action for MedTec Medizintechnik GmbH from Wetzlar and the worldwide patented MBST magnetic resonance therapy.

Health Made in Germany

Only few companies and brands have a worldwide unique product portfolio. One of these is MedTec with MBST. With the therapeutically used MBST magnetic resonance technology, MedTec has developed from a pioneer to a world market leader with the aim to establish the MBST therapy as a global standard treatment not only for diseases and injuries of the musculoskeletal system.

MBST was developed to enable the targeted transfer of energy into diseased or damaged tissue and stimulate it on a molecular level without surgery or invasive treatment, intravenous infusions or injections, drugs, exposure to radiation, side effects or interactions. It is used for the treatment of for example osteoarthritis, osteoporosis, disc conditions and other indications.

About MedTec Medizintechnik GmbH

Founded in 1998, MedTec Medizintechnik GmbH from Wetzlar has developed from a pioneer to world market leader in the field of therapeutically used MBST magnetic resonance technology. MedTec develops, produces and distributes the worldwide unique and patented technology that is used in MBST therapy system for human, veterinary and aesthetic medicine. Doctors, specialist, medical centres, hospitals, clinics and universities put their trust in the MBST therapy system today – not only in Germany and Europe but worldwide. It is MedTec's vision to enable a healthy, active and pain-free life for patients of nearly every age with its therapeutically used MBST technology. The MBST magnetic resonance therapy achieves that in the treatment of various degenerative diseases and injuries of the musculoskeletal system without needing drugs, injections, infusions, pain killers or surgical interventions. More than 1,000,000 hours of therapy have been applicated with the MBST magnetic resonance technology so far without any side effects or interactions becoming known. MedTec Medizintechnik GmbH stands for global leadership of market and technology with its worldwide patented therapeutically used MBST magnetic resonance technology.
